

Selling Points - AMCO Double Offset Tandem Disc Gangs

The key to level discing

Offered on LTF, F17, F15B, & F15

With the F15, you get 100% tillage across the disc—no need for a center shank or other tools.

- Double Offset Tandem Design – The overlapping front and staggered rear disc gangs are key for a smooth and level seedbed. This feature allows the front discs to cut evenly across the width of the machine eliminating the need for a center buster shank to level off the center. The staggered rear discs gangs throw the soil back for a smooth, even finish. This design also eliminates ridging in the center.

AMCO Exclusive Product Performance Guarantee – Repair, Replace, or Refund: AMCO Guarantees Performance – The best tillage tools deserve the best guarantee. The AMCO guarantee is simple. If, during the first 30 days, your AMCO equipment doesn't perform as promised, and if we don't make it perform in a reasonable amount of time, we'll repair it, replace it, or buy it back.
