

Selling Points: AMCO Terracing Plow

With the AMCO Manufacturing Terracing Plow, you can build 1,000 feet of terraces or more per hour. This one of a kind Terracing Plow can be pulled by any tractor equipped with a 3 point hitch in the 176-270 engine horsepower range. Save both time and money when compared to the cost of terraces slowly built with bulldozers, scrapers, and other large earth-moving equipment.
